SUMMARY

Frontend Developer skilled in React, Next.js, TypeScript, and Tailwind CSS. Bridges design and development by turning Figma prototypes into fast, production-grade applications. Builds with scalable components and accessibility in mind to ensure superior UX and sustainable code quality.

SKILLS

- **Frontend:** React.js, Next.js, Vue.js
 - **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
 - **Styling:** Tailwind CSS, CSS3, SASS
 - **Dev Tools:** Git (GitHub/GitLab)
 - **Tools:** Visual Studio Code, Figma
-

WORK EXPERIENCE

Frontend Developer Intern

[ORDOAPPS](#) | Surabaya

Jul 2024 – Nov 2024

- Translated Figma designs into production-ready Laravel Blade templates for 8+ client brands, completing 22+ development tasks including UI components and bug fixes.
- Partnered with senior developers to debug issues and refine UI components, contributing to timely project delivery.
- Conducted frontend debugging and implemented iterative UI improvements based on QA and user feedback.

Frontend Developer (Freelance)

2025 – Present

- Built the frontend layer for a POS system using Laravel Blade and SCSS, creating administrative dashboards with role-specific interfaces optimized for desktop use.
-

PERSONAL PROJECTS

[ZOTURAL](#)

Admin panel dashboard with role-based access (Manager/Sales) using React, Vite & Tailwind CSS.

[MOVIESSIS](#)

Movie discovery platform built with Next.js, TypeScript & TMDB API featuring real-time search.

[AI INNOVATION](#)

Performance-optimized landing page (Vue 3/TypeScript/UnoCSS) deployed on Vercel.

[Personal Website](#)

Responsive portfolio built with Next.js, TypeScript & Tailwind CSS to showcase projects.

EDUCATION

SMK Negeri 1 Kediri — Computer and Network Engineering

Jul 2022 – May 2025

- Secretary of Islamic Spiritual Organization (SKI)
-
